CURES

Whenever a sore or ulcer refuses to heal it is because the blood is infected with poisonous germs or some old blood taint which corrupts and pollutes the circulation. Nothing is more trying than a non-healing, chronic old ulcer. The very fact that it resists all external applications, and ordinary treatments, is good reason for alarm, for the same germ which produces cancerous ulcers is back of every old sore, and especially is this true if the trouble be from any inherited taint. Surface treatment cannot reach the trouble—the blood is at fault and must be purified before a cure can be hoped for. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is a perfect blood purifier—one that goes directly into the circulation and promptly cleanses it of all impurities, poisons and taints. The ulcer can never heal while the blood discharges into it the noxious matter with which it is infected, but when S. S. S. has rid the blood of this cause and freshened and built up the circulation the sore will heal naturally, and of its own accord. S. S. S. begins at the bottom and heals the place as it should be healed and makes a permanent and lasting cure. Book on Sores and Ulcers and any special medical advice desired will be sent free to all who write.

LUCKY ACCIDENTS.

Remarkable Freaks of Fate That Led to Finding Persons Sought.

Innumerable strange stories of how persons long separated were reunited have been turning up all over the country lately. Some of these tales have been so fantastic in their details that if they were worked into fiction or melodramas the critics probably would call the police, says the Philadelphia Press.

Take, for instance, the manner in tors of the Rock Island railroad syswhich John M. Lomax of Dover, Ohio, tem, was at the White house today and more than thirty-four years. When dent. Mr. Yoakum was reticent as to this sister, Anne, was 16 years old the purpose of his visit here, but it is her mother died and then she be housekeeper and cook for her father trial depression formed the topic of and her brother.

> portant will suit was found by R. S. Glenn, a New York attorney.

A claimant of an estate needed certain papers which Schweringen had in his possession, but no traces of Schweringen could be found. He and the claimant had roomed together in Oneida, N. Y., while both had been employed in a foundry, but no one knew where the man had gone.

Glenn, attorney for the claimant, set out to find the missing individual. He had nothing to guide him but a flimsy description given by his client, but he went to many foundries and did considerable correspondence thinking that he would find the man still working at his old trade. Weeks passed without success. The time was coming close when the papers must be produced or the

claimant would lose his case. In a last desperate effort to land his man Glenn took a train for Pittsburg. * Early one morning, after sleeping in a Pullman berth all night, Glenn woke to find that the train was at a standstill. Looking outside he found freight locomotive pulling close to his car. In the cab was a man, and Glenn -he didn't know why he did it-suddenly asked him, "Is your name Schweringen?"

"Yes," was the reply, and before Glenn recovered from the shock the train began to move onward. He quick-l ytold Schweringen to rush the papers to New York, however, and thus his client won his case.

The story of the separation and reunion of Walter and Thomas Stafford of Willmantic, Conn., reads like a chapter out of one of the "year's biggest sellers."
